What is Hemp, Inc.? Hemp Inc. is a publicly-traded company, founded in 2008, that has grown to become one of the most recognizable global leaders in the industrial hemp industry with an 85,000 square foot multipurpose industrial hemp processing facility in Spring Hope, North Carolina, a 500 acre hemp growing Veteran Village Kins Community in Golden Valley, Arizona, two model "Small Family Hemp Farms" in North Carolina and Arizona, and a hemp Pre-Roll blending and manufacturing facility in Las Vegas, Nevada and a 5,000 square foot retail store (The King of Hemp Store) in Kingman, Arizona. The Company has more than ten years' experience in growing and processing hemp in North America. Hemp, Inc. has an established network of industry professionals in every segment of the industrial hemp industry.

While hemp is primarily grown to produce seed, fiber, medicine and oil, the byproducts that remain after harvest could serve as feed for animals. This may include leaves, fodder and residual plant fibers. Since these byproducts are predominantly "cellulose-containing plant materials" the best type of animals to utilize these byproducts are ruminants (cattle, sheep, goats, buffalo, deer, elk, giraffes and camels) because of their unique digestive system. This opens the door for segments of the agricultural industry to take advantage of opportunities in the hemp market by using hemp as animal feed.

Hemp, Inc. focuses most of its resources and personnel on growing and processing a very successful high CBD hemp grow in Southern Oregon as opposed to constructing a massive infrastructure. Those bold moves and strategic actions yielded solid results with its products; King of Hemp<sup>®</sup>, unique and one of kind, CBD product. The line consists of CBD/CBG/CBN Power Capsules, Coffee Enhancer, Midnight Express Pre-Rolls, flavored Pre-Rolls, Fortified Pre-Rolls, Caviar, Diamonds and SuperTinctures.

It has been Hemp, Inc.'s intent to continually invest in building its hemp infrastructure, especially since none existed previously. In fact, the Company has instinctively been following the same path as Amazon, reinvesting profits and operating capital back into building the infrastructure. This is a business strategy that has been proven and works well.

All the years leading up to this point were building and finishing the largest hemp infrastructure in America and now the Company is focusing 90% of its efforts on marketing and generating revenues.

According to the latest <u>Allied Market Research Report</u>, projects the global industrial hemp market to "reach \$18.6 billion by 2027, growing at a compound annual growth rate (CAGR) of 22.4% from 2021 to 2027." The rise in usage of hemp seed and hemp seed oil in several food applications, increase in awareness regarding advantages of recreational hemp and surge in demand for hemp-based beauty and personal care products drive the growth of the global industrial hemp market.

### Hemp, Inc.'s 9 divisions are as follows:

Division One	The Industrial Hemp Infrastructure
Division Two	The Hemp Farming Infrastructure
Division Three	Hemp CBD/CBG/CBG Products
Division Four	The Hemp Educational Infrastructure
Division Five	The Hemp Marketing Infrastructure
Division Six	Accessories Products and Services
Division Seven	Research and Development
Division Eight	Industrial Hemp Investments and Joint Ventures
Division Nine	Industrial Hemp Consulting

The Industrial Hemp Infrastructure (Division One) currently consists of its multi-purpose industrial hemp processing facility and milling operation in Spring Hope, North Carolina. The 85,000 square foot facility sits on nine acres. It is environmentally sustainable and was built from the ground up, in hopes of "Making America Hemp Again". The North Carolina facility is currently on hiatus from manufacturing products, but is still selling the Company's unique kenaf-hemp blend, the all-green natural loss circulation material (LCMs), called DrillWall<sup>TM</sup>. The DrillWall<sup>TM</sup> can be sold to the oil and gas drilling industry, along with an all-green natural oil spill absorbent, a second industrial kenaf-hemp product called Spill-Be-Gone<sup>TM</sup>.

# **Division One Products:**

DrillWall<sup>TM</sup> (a loss circulation material) Spill-Be-Gone<sup>TM</sup> (an oil spill cleanup product)

# **Division Two – The Hemp Farming Infrastructure**

The Hemp Farming Infrastructure (*Division Two*) consists (between Hemp, Inc. and its associates) of hemp and kenaf growing in multiple locations, farm equipment, cloning rooms, clones and seeds, grow rooms, greenhouses, hemp drying facilities and a large amount of peripheral farming tools and equipment. Hemp, Inc. has increased its focus on its agricultural endeavors over the course of four years. In 2020, Hemp Inc., celebrated five years successfully growing hemp.

# *Division Three* –Hemp CBD/CBG/CBG Products

*Division Three* is primarily focused on CBD/CBG/CBN Products such as our new Super Tincture with 10,000 mg of CBD/CBG, and two versions of our new Super Capsules -- one with 250mg CBD and 100mg CBG per serving and another with 150mg CBD, 50mg CBG and 25mg CBN per serving as well as the King of Hemp<sup>®</sup> Pre-Roll Blends, Fortified Pre-Rolls (now infused with Hemp Terpenes); Bubba Kush Hemp; Caviar/Moon Rocks; and Diamonds and Crumbles (smaller Diamond pieces) The CBD oil that was extracted from the 2018 hemp grows in North Carolina has been made into pure crystalline CBD isolate which was added to the Company's "King of Hemp<sup>®</sup>" branded line of pre-rolls.

In lieu of building its own extraction laboratories, Hemp, Inc. plans to utilize the facilities of other labs in the industry, when needed, to manufacture its own line of CBD oil products. With 150 different cannabinoids, over 300 terpenes and more of each being discovered almost monthly, the product range and possibilities in this area are endless.

Consumers can also shop on the newly redesigned website www.kingofhempusa.com for the King of Hemp<sup>®</sup> pre-rolls and hemp tinctures. Each pre-roll contains a smooth, nearly odorless natural hemp smoke. They are tightly rolled into a filtered cigarette rice paper for the ultimate discreet smoke. Many users have said the King of Hemp<sup>®</sup> pre-rolls present a calming experience, perfect for alleviating feelings of anxiousness and gaining mental clarity. It contains .3% or less THC so it's federally legal nationwide.

# **Division Four – The Hemp Educational Infrastructure**

The Hemp Educational Infrastructure (*Division Four*) includes Hemp, Inc.'s **Hemp University** which focuses on educating and empowering Hemp farmers and entrepreneurs with knowledge, processing, infrastructure and support. The **educational seminars**, through the Hemp University, are held periodically (as needed). These seminars are to teach farmers and landowners how to create a profitable income stream by maximizing the per-acre crop revenue. Through this division, Hemp, Inc. has trained well over 500 farmers in its first two years by doing a total of nine Hemp University seminars in North Carolina and Oregon.

The Hemp University has helped transform the livelihoods of North Carolina and Oregon farmers transitioning from tobacco and other crops to industrial hemp by providing them with the tools and support needed to gain a foothold in this burgeoning industry. This division is currently not holding seminars due to the onset of COVID.

# **Division Five – The Hemp Marketing Infrastructure**

Hemp, Inc. believes there must be a keen focus on its marketing infrastructure. The demand for CBD, CBG and other hemp products is massive. To supply that type of volume/demand being experienced, there needs be a strong foundation or

infrastructure in place. While Hemp, Inc. continues to grow its Hemp Marketing Infrastructure, this infrastructure must be able to support an aggressive industry growth. The cannabidiol (CBD) market is on track to grow to \$23.7 billion through 2023, according to the Brightfield Group.

### *Division Six* – Accessories, Products and Services

Division Six *(currently not active)* will focus on the sale of hemp industry accessories such as the sale of extractors, harvesters, storage bags, containers, fertilizer, soil amendments, humidifiers, dehumidifiers, balers, greenhouses, and greenhouse equipment; the drying, trimming, curing, storing and brokering for other farmers harvesting hemp and ultimately anything else a hemp farmer may need to be successful.

### *Division Seven* – Research and Development

Research and Development has been an integral part of Hemp, Inc. since day one and a more formal research and development project is planned for the future. The King Of Hemp Brand products (available on the website <u>www.KingOfHempUSA.com</u>) are evolving products where we research the best methods of formulating our products and increase their bio-availability.

# *Division Eight* – Industrial Hemp Investments and Joint Ventures

Hemp, Inc. established its eighth division (Industrial Hemp Investments and Joint Ventures). Since the passing of the 2018 hemp bill, Hemp, Inc. has been flooded with inquiries of people who want to invest in the hemp industry but do not know where to start. As the Avant-guard of the industrial hemp industry, Hemp, Inc. has put together numerous joint venture investment opportunities for the medium to large-scale investor. Our joint venture agreements state, "they put up the money and we put up the expertise in a 50/50 revenue share, *after all the initial investment money is paid back*". This will save the large-scale hemp investor often two years and dozens of multimillion-dollar mistakes, that they will often make without an expert in the hemp industry.

# **Division Nine – Industrial Hemp Consulting**

Hemp, Inc.'s Industrial Hemp and Medical Marijuana Consulting Company (IHMMCC) was recently restructured, as its ninth division and is now "Division Nine - Industrial Hemp Consulting". With an influx of public companies wanting to expand into the industrial hemp industry, Hemp, Inc. has received numerous potential consulting agreements. To keep up, Hemp, Inc. revamped its consulting division to work hands-on with each company to provide its years of expertise. There is a sense of a "Community of Companies" whereby companies are working together to pool their resources, marketing connections and strategies in order to grow simultaneously.

Typically, companies seeking in depth consulting services from Hemp, Inc., pay mostly in stock, since cashflow is often times tight during the developmental stage of companies in this industry. Through Hemp, Inc.'s Division Nine – Industrial Hemp Consulting, a wide range of services are forged from the experiences of creating the first publicly traded company in the cannabis sector (Medical Marijuana, Inc.) and having over a decade of experience in the industrial hemp industry's public sector.

# **VETERAN VILLAGE KINS COMMUNITIES**

The company's strategic growing partner, Veteran Village Kins Community in Golden Valley, Arizona, is designed to grow hemp and produce CBD and CBG products, to benefit veterans, as well as generate revenue for Hemp, Inc., the Veteran Village and individual veterans living in the community.

The Veteran Village Kins Community in Arizona has completed its final site plan blueprints for its 36 acre site in Golden Valley, Arizona (20 miles north of Kingman, AZ and 90 minutes from Las Vegas, NV). The site plan was submitted to the Mohave County Building Department, for final review. The Company completed the final phase of the necessary infrastructure, to support an off-grid, renewable, energy systems. The Company also expects to build hemp-growing communities for other groups, such as "Abused" Women & Children Village Kins Communities, the "Orphans" Village Kins Communities, "Homeless" Village Kins Communities, the "Healers" Village Kins Communities (the healers are professionals who are knowledgeable in the modalities to treat these traumatized groups) and a community to "Heal the Healers" called Heal the Healers Village Kins Communities are all synergistically aligned to work

simultaneously supporting each other.
